ROAD CLOSURES

The Rob Burrow Leeds Marathon & Leeds Half Marathon takes place on Sunday 12th May 2024 and will require road closures and parking restrictions in your area. Over 12,000 participants will take on the two courses, which start and finish at Headingley Stadium. The circular marathon route will take in some of Leeds most scenic countryside and outer suburbs, journeying around Woodhouse Moor before travelling up through Headingley, Adel, Pool in Wharfedale, Otley and Bramhope and back for the big finish.

This leaflet provides specific access details for Headingley residents.

You'll find further information, including a list of Vehicle Crossing Points to help drivers cross the route safely, [here](#)

The marathon will start on St Michael's Lane in Headingley, outside the entrance to Headingley Stadium, and will also see participants coming back in along the lane before entering the stadium to finish on the pitch. The closures along St Michael's Lane will go in from 04:00 until 18:30.

Closures around Headingley and Far Headingley will start to be implemented from between 06:00 – 07:30. Roads will re-open as soon as it is safe to do so and the final runners have passed through the area, at approximately 17:00

A full interactive map of all the road closures, timings and diversions can be found at <https://www.runforall.com/events/marathon/leeds-marathon/resident-information/>

ACCESS / EGRESS

St Michael's Lane will be shut to vehicles between 04:00 – 18:30 and pedestrians between 08:00 – 10:30 on Sunday 12th. Residents will be required to apply for a Residents Pass for pedestrian access only so that we can maintain pedestrian access throughout.

Vehicle access and egress from St Michael's Lane will be restricted between 07:30 – 11:30, after this point Headingley Lane will reopen with access to and from the city centre.

An egress lane will be implemented from Kepstorn Road onto Spenn Road, this lane will be temporarily removed between 12:30 – 14:30.

HEADINGLEY

VEHICLE CROSSING POINT

There are points across the route indicated [here](#) where we will facilitate vehicle crossing points, these are as follows;

- Church Wood Avenue to Glen Road until 09:10 and then under marshal supervision from 11:15.

PARKING RESTRICTIONS

Any vehicles parked on the route will be removed. Please assist us by moving your vehicle off the route on the evening of Saturday 11th May. If your vehicle is relocated by event contractors, please contact Run For All.

There will be parking suspensions and no waiting restrictions implemented to facilitate vehicular drop off loops at two locations;

- Drop off arriving from the East – Grove Lane onto Shaw Lane
- Drop off arriving from the West – Queenswood Drive

BUSINESS & TRANSPORT

We hope that businesses will remain open as usual on the day and have been in touch with them to encourage them to remain open with the expectation of large numbers of spectators watching across the marathon route. Please check with the businesses that they will be open prior to visiting them.

Some bus services will be displaced and diverted by the marathon route, therefore we advise that you check via one of the following methods, prior to travel;

- Bus service providers website (i.e. First Bus)
- West Yorkshire Combined Authority website – will detail bus diversions and alterations
- Bus stops will advise of changes to normal services
